

APIs for Modules

PoolParty offers modules that are an addition to some server bundles. This section contains the API documentation special for those modules.

PoolParty's API is versioned after the same pattern PoolParty itself is. Thus version 7 of PoolParty corresponds to version 7 of the APIs.

The following API topics are available here:

- [Classification Management APIs](#)
 - [Web Service Method: Request a List of Classifiers](#)
 - [Web Service Method: Create a New Training Box](#)
 - [Web Service Method: Upload Documents to a Training Box](#)
 - [Web Service Method: Request a List of Training Boxes](#)
- [GraphEditor Services](#) — In this section find all the API calls PoolParty provides for using the GraphEditor.
 - [Web Service Method: Create and Configure a New GraphEditor](#)
 - [Web Service Method: Request Details about a GraphEditor](#)
 - [Web Service Method: Search for a GraphEditor](#)
 - [Web Service Method: Delete a GraphEditor](#)
 - [Web Service Method: Create a New Resource](#)
 - [Web Service Method: Add a New Attribute Property to a Resource](#)
 - [Web Service Method: Update an Attribute Property of a Resource](#)
 - [Web Service Method: Delete an Attribute Property of a Resource](#)
 - [Web Service Method: Add a New Relation Property to a Resource](#)
 - [Web Service Method: Update a Relation Property for a Resource](#)
 - [Web Service Method: Delete a Relation Property from a Resource](#)
 - [Web Service Method: Bulk Addition to GraphEditor Resources](#)
 - [Web Service Method: Bulk Deletion of GraphEditor Resources](#)
 - [Web Service Method: Bulk Removal of GraphEditor Resources](#)
- [SKOS-XL Services](#)
 - [Web Service Method: Request All Created SKOS-XL Labels](#)
 - [Web Service Method: Request All Relations Between Concept and SKOS-XL Label](#)
 - [Web Service Method: Request Outgoing Label Relations of SKOS-XL Label](#)
 - [Web Service Method: Assign a SKOS-XL Label to a Concept](#)
 - [Web Service Method: Adds a New SKOS-XL Label to a Project](#)
 - [Web Service Method: Add Relation Between Two SKOS-XL Labels](#)
 - [Web Service Method: Remove Relation Between Concept and SKOS-XL Label](#)
 - [Web Service Method: Delete a SKOS-XL Label](#)
 - [Web Service Method: Remove Relation Between Two SKOS-XL Labels](#)
 - [Web Service Method: Update Label Text of a SKOS-XL Label](#)
