

# Release Notes - PoolParty 7.0.1-7.0.3 - Minor & Bug-Fix Release

## Bug Fixes 7.0.1

- In the **Corpus Search** interface, an issue with searching for altLabels or hiddenLabels has been fixed.
- The jQuery library has been updated to its latest version.

## Bug Fixes 7.0.2

- Issues deploying PoolParty on WAS have been fixed.
- Migration of core ontologies has been fixed so ontologies are displayed correctly after upgrading to PoolParty 7.0

## Bug Fixes 7.0.3

- A bug in the PoolParty API caused any string be possible as language tag, resulting in faulty language tags. Fixed as of this version.
