

# Release Notes - PoolParty 7.1.1 - Minor & Bug-Fix Release

## Bug Fixes

- Linking two top concepts with the same preferred label to a third using the **Related Matching Concepts** function resulted in one only being displayed in the **Related Matching Concepts** interface section. This issue has been fixed.
- An extractor access vulnerability occurred and was fixed.
- A user management issue regarding role changes and subsequent permission and login issues was fixed as of this version.
